Baldwin Secures \$1.2M Spray Dampening Order From Kobe

Shelton, CT, September 28, 2006 -- Baldwin Technology Company, Inc. (AMEX: BLD), a leading international supplier of printing press accessories and controls, announced today that it received an order from the Kobe Newspaper Company in Japan for SD-H spray dampening systems in excess of \$1.2 million.

President and COO Karl S. Puehringer said, "The Kobe Newspaper Company has confirmed its confidence in Baldwin's spray dampening technology with this order. We pride ourselves on working closely with customers to ensure that we provide the right solutions for their particular requirements. Every situation is different, but the flexibility and scope of the Baldwin product range allows us to meet individual newspaper demands in regards to productivity, quality, budget and the environment."

The plant manager at the Kobe Newspaper Company said, "Baldwin's SD-H dampening system has an outstanding reputation in the marketplace. The reports we heard from other newspaper printers using the technology confirmed the print quality improvements that can be achieved by using the SD-H to spray fountain solution onto the plate. In addition, we were impressed by the sales support provided by Baldwin Japan throughout the whole process."

About Baldwin

Baldwin Technology Company, Inc. is a leading international supplier of offset printing press accessories and controls for the newspaper publishing and commercial printing industries. Baldwin offers its customers a broad range of market-leading technologies, products and systems that enhance the quality of printed products and improve the economic and environmental efficiency of printing presses.
