Baldwin to Present to Investors at NYSSA Conference

Shelton, Conn. – June 18, 2009 -- Baldwin Technology Company, Inc. (NYSE Amex: BLD), a leader in process automation technology for the global printing industry, announced today that it will present to investors at the “Micro-cap Investment: Technology Innovators Conference” sponsored by the [New York Society of Security Analysts](#).

Baldwin CEO Karl Puehringer and CFO John Jordan will present at 10:00 a.m. EDT on Thursday, June 25.

A live and archived audio webcast of Baldwin’s investor presentation will be available at <http://www.baldwintech.com> and <http://www.hawkassociates.com/profile/bld.cfm>.

About NYSSA

The New York Society of Security Analysts ([NYSSA](#)) has been a leading forum for the investment community since 1937. NYSSA was incorporated in 1940, and its purpose remains true to this day: to establish and maintain a high standard of professional ethics in the security analysis field; to improve analytical techniques; to foster the interchange of ideas and information among security analysts; and to promote proper understanding of the function of financial and security analysis and the operation of the security markets. As a not-for-profit educational organization, NYSSA is committed to the promotion of best practices and the highest professional and ethical standards in the investment industry.

About Baldwin

Baldwin Technology Company, Inc. is a leading international supplier of process automation equipment for the printing and publishing industries. Baldwin offers its customers a broad range of market-leading technologies, products and systems that enhance the quality of printed products and improve the economic and environmental efficiency of printing presses. Headquartered in Shelton, Connecticut, the company has operations strategically located in the major print markets and distributes its products via a global sales and service infrastructure. Baldwin’s technology and products include cleaning systems, fluid management and ink control systems, web press protection systems and drying systems and the related consumables.
